ስሜ መስከተው ሁሉ

ሁሉን ጅብረት ነፊ የሳይንስ ባችለር ዲግሪ በኢኮኖሚክስ እና
ኮምፒውተር ምህንድስና (ኮምፒውተር ምህንድስና የትኩረት መስክ)
24/01/2016 ዓ.ም. በመመሪያቸው ዲህ የምስክር ወረቀት
ተሰጥቷቸዋል። ስጦታቸው ውጤታቸው 3.91 ሲሆን የአገር አቀፍ
መውጫ ፈተና አማካኝ ውጤታቸው 80 መሆኑን እየገለጹ፤
ዋናው ዲግሪና ትራንስክሪፕት በወጭ መጋራት ውስጥ መሠረት
ግዴታቸውን ሲወጡ የሚሰጣቸው ይሆናል።

To Whom It May Concern

This Certificate is issued to Hussen Jebрил Nure upon his
graduation with the Degree of Bachelor of Science in
Electrical & Computer Engineering (Computer
Engineering Focus Area) on October 05, 2023 G.C. His
grades are CGPA 3.91. He has scored an average of 80 in
the National Exit Exam. The original Diploma and Transcript
will be issued upon the discharge of cost sharing duty.

ከሰላምታ ጋር
With Regards

To Whom It May Concern:

I am writing this letter of recommendation for Hussen Jebril, a truly exceptional candidate seeking admission to your esteemed graduate program. I have had the pleasure of knowing Hussen both as his instructor for "Introduction to Electrical Machines" and as the Head of the Electrical and Computer Engineering Department.

Hussen was one of top ten students in my class and demonstrated all the amazing qualities that a great student should have. He is intelligent, hardworking, and dedicated to his studies. He was eager to ask about topics that he didn't understand and actively respond to some of the questions raised in the class. During group assignments, I could understand that he is enthusiastic about solving problems in group. He is a team player and works well with others.

After I became the head of the Electrical and Computer Engineering Department, I kept in touch with Hussen. I know that he was a member of the Peace Forum in the university and played an active role in it. I have also learned that Hussen volunteered his time and expertise to assist and teach sponsored students in the "Wogen Children and Mothers Support Organization" providing them with valuable basic computer skill training. His commitment to initiatives beyond the academic realm shows his well-rounded personality and dedication to contributing positively to the community.

I am proud to highlight that Hussen stood first and graduated with very great distinction in the entire class of Electrical and Computer Engineering. His academic achievements, combined with his extracurricular involvement and community service make him an ideal candidate. I highly recommend Hussen Jebril for admission to graduate studies, confident that he will undoubtedly excel and contribute positively to your academic community.

Please do not hesitate to contact me if you require any further information.

Sincerely,

Mr. Habtamu Endalamaw
MSc in Power System Engineering
Head of Electrical and Computer Engineering Department

To Whom It May Concern:

It is with great pleasure that I recommend Hussen Jebril for admission to your esteemed graduate program. I have known Hussen for more than two years in my roles as his "Database Systems" and "Embedded Systems" lecturer, as well as his undergraduate thesis advisor. In that time, I have come to know Hussen as a thoughtful, dedicated, and academically excellent student.

Hussen is a thoughtful and reserved student who actively engages in critical thinking. He demonstrates a commitment to continuous improvement, displaying a positive team spirit in group settings and consistently submitted assignments on time and of high quality. Hussen prefers to listen and think deeply rather than speak unnecessarily. However, when he did contribute to class discussions, his questions and answers demonstrated exemplary understanding.

I vividly recall Hussen's database project developing a website to digitize student records at his former high school. Hussen took the admirable initiative to build the website using modern frameworks like Django, exceeding the project requirements. This showcased Hussen's drive to apply his skills to help his community.

As Hussen's thesis advisor, I mentored his development of the "UOG Market Research" platform. This innovative solution transforms the university's manual market research process into an efficient digital system. Throughout his thesis work, Hussen demonstrated impressive qualities like diligence in seeking feedback, leadership in guiding his team, and passion for bettering our university. Most of all, the meaningfulness of his project, aiming to increase research efficiency at our university, highlighted Hussen's community-minded goals.

In summary, I strongly recommend Hussen Jebril for admission to your esteemed graduate program. I am fully assured that any duty that will be assigned to him in your institution will surely succeed and I wish him all the best.

Sincerely,

Ardualem Fantahun
